

Spring 2016

Ladies and Gentlemen STEM Educators,

In July of 2015, the South Central PA Chapter of ASM International held its second annual ASM Materials Camp for Teachers at Millersville University's Osburn Hall. We had eighteen (18) Central Pennsylvania teachers register for the one week camp and sixteen (16) attended. Because of the success of the 2015 camp, ASM has agreed to run it again in 2016. This will be only one of forty-three "Teacher Camps" being held nationwide next summer. Since 2002, over 11,000 teachers have attended and benefited from these FREE educational camps. Please plan to join us for the 2016 ASM Materials Camp for Teachers at Osburn Hall of Millersville University, July 25 through July 29, 2016. We will have seats for up to thirty STEM teachers. Reserve yours today. Please see the attached literature for complete details.

In addition, ASM International has Materials Camps for students between their sophomore and senior years of high school. There will be 24 one week camps across the country next summer. The closest ones to us are at Drexel University in Philadelphia, Lehigh University in Bethlehem and at ASM Headquarters in Materials Park (near Cleveland) Ohio. If you know any interested students, please feel free to share this information with them. The camps are FREE for the students. If travel costs are a problem, the South Central PA Chapter will cover them. Students can see more by going to www.asmfoundation.org and looking for Materials Camps – Student.

We are asking for your assistance in spreading the word about these camps throughout the middle and high school science and math teacher community. Thank you for your assistance and we look forward to seeing you at camp in Millersville on July 25, 2016.

Best regards,
Daniel S. Elliott
